JUNE/JULY- GAMES COURSE #3

SNOOKER.

Snooker is a game of two parts, but unlike gamblers there is no whistle to signal transition from the first part to the last part – you have to try and get it all done within the time limit.

The first part is about the reds!! The reds are jumps. They are only worth one point, and each one only has to be done once. In between each red jump you have to put a coloured obstacle (They are numbered 2-3-4-5-6-7). This is the strategic part of the game.

Do you just try to qualify?

In NZKC Games this means get 10,15 or 20 points in the opening depending on level from Grade C to Grade A. Or do you attempt suicide sevens – and do the #7 obstacle between each red?? This normally is a longer more difficult path.

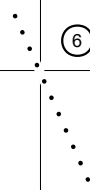

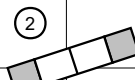

The second part of the game is the easiest and requires the dog to negotiate obstacles labelled 2-3-4-5-6-7 in the correct order, and then finish. This month #7 is a two jump/tunnel sequence. So, do you attempt it or not????

Gonna try the Games???

If you want to take part in the games class please send a request to kpde Wit@xtra.co.nz and you will receive a standard results sheet and scrim sheets to use.

Results must include a dogs permanent number if it has one.

August 2016 Snooker course

Snooker - August	20	15	60 seconds maxm. Scoring stops once 60 secs is reached. A Q can only be given if the dog gains 10 points and finishes within 60 secs.

Flygility

By Raewyn Saville

Well you never know what is going to come out of the woodwork when you go to a Flygility Tournament. The other week it was a Cambridge Two-dayer. As usual due to my commitment to do dog behavior classes on Saturdays, I only made it to the Sunday. And there was Allan Harrison. Setting up a course with Fly hurdles in between the tunnels as an Intermediate Course. So it looked more like a Flyball event than a Flygility Event.

What's going on here Allan! I asked him. He replied that he had taken a leaf out of 'my' book. Meaning that I had once had a discussion with him about teaching beginners Flyball as a starter sport to Flygility. Why? Because it teaches the dogs the fly hurdles and I really like dogs who know how to find the fly hurdle at the start and end of the course. Allan went on to say he had already done it in Hawera and it worked there. What annoyed me most is that I hadn't thought of it.

If you run through the pros, there is no rule that says you can't use Fly hurdles throughout the course. It probably is good for beginner dogs to get used to the wooden jumps and my Chippy got his first Intermediate points on the course. The main reason I would be a bit worried about over use of the wooden hurdles would be that they are prone to injuring the dogs when they hit them hard. Bowling over a wooden fly jump means it is well and truly displaced and the dog then has to come back through it and the rerun with the hurdle being in a shape it should not be.

I would probably support a remit to the rules that allowed for the inclusion of Fly hurdles throughout the course at any level on the basis that the run was called off if a hurdle was bowled over. The course should then be reset and the race restarted.

It is good fun to do different things in courses and with our limited equipment and opportunity, within the lane system, to make big curves and course direction changes, it is nice to be challenged by people thinking outside the square.

At the moment I am trying to draft a remit for the upcoming AGM to the effect that we need 'Open' class back in the rules to allow for freedom of team member choice for teams. Teams really could be a wonderful 'new' challenge for Flygility. It takes away the boring certainty that when you draw so and so dog you will win, and when you draw the other one you will lose. The field of players is so small that we all come up against one another continuously, some are slower and some are faster. Some weave and some don't. I think it is the predictability that is killing the sport.

Heard in conversation. 'I have drawnagain. I had him yesterday and the last time I was at a Tournament, total waste of time, might just as well not race'. Now I know that sounds like a really silly negative conversation but in fact it is the utter truth. Splits are certainly working in terms of points for small dogs, but it has cut the opportunity for some of the medium not so fast dogs to gain points off the backs of the little fellas. Many will say 'good job'. But it also lessens the pool of talent in each height class, so that the odds that each split draw will feature the same old same old rival is highly probable.

Let's decide for example that we will run an Open Quads. Teams of four with talent from all four levels of achievement. So each team features 2 Beginner/Intermediate Dogs, an Intermediate Senior Dog and an Advanced Dog. The course is a straightforward mildly curved course with ramps tunnels and regular hurdles with of course a fly hurdle start and finish. Or a team that features one small dog one med dog and one maxi dog as a triples. The Teams are selected, not random. This gives teams the opportunity to hone their skills and practice before the day. Of course everyone is going to choose their best dogs, but I believe the predictability of how it will go on the day will be greatly reduced. The race is over when the winning team completes. The other team who have lost then stop racing. Bring it on I say... Also included in the achievement of titles needs to be a certain number of points won at team's level to encourage everyone to participate.

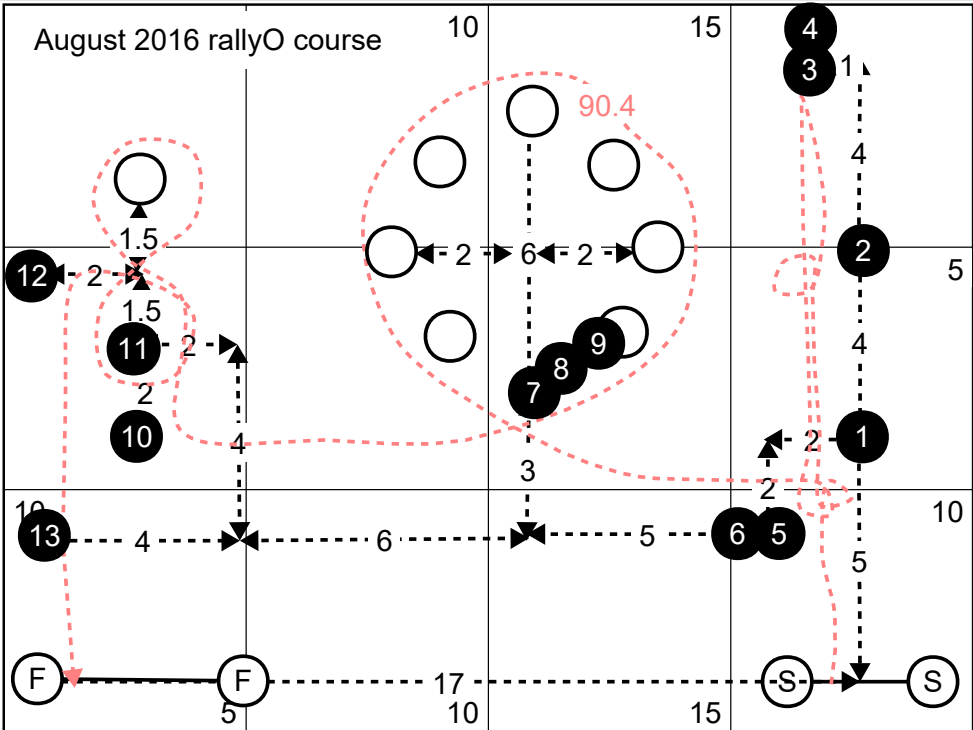

I would bet that the team spirit would be ramped up right throughout the sport, Teams could have fancy names and even sponsors, and maybe costumes or funny hats or something.

The fun and competitive nature of the sport might be wildly enhanced. People might actually come to a Tournament to enjoy themselves with their mates, instead of just being there to grab as many points as they can to get their achievement titles for themselves.

Something I have always admired about Allan Harrison, he always thanks you profusely when he takes the point for he and his dog. Yep it's a nice gentlemanly touch and maybe everyone should be grateful when the race goes their way. Having raced the same dogs for the third time in a row and robbed the poor mugs every time.....

New Zealand Association of Rally-O

July 2016

1. 360 right turn
2. 360 left turn
- 3/4. left about turn (29)/fast pace
- 5/6 normal pace/270 left turn
- 7/8/9. fast pace/circle right dog on outside/normal pace
10. right turn
11. NZARO Figure of eight
12. left turn
13. call front finish right forward (13)

NOTE: On a few locations this month two or more signs are placed together.

Perform the signs in order. eg. 7-8-9 You go into fast pace, around the circle and then drop to normal pace when the circle is completed.

(NZARO can have married signs (where two or more signs are placed by the same number). The judge explains in what order to perform the signs.)

Rally-O- USING A PIVOT BASE to help a dog find heel position.

A pivot base is just a place where the dog places his front feet, and they remain there while the back end moves around. The pivot base does not have to be high, it could just be a square of carpet on the ground, but if its elevated that seems to be easier for the dog to understand. Size of the base is such that it needs to be small enough so the dog can rotate around the base without the base getting in the way.

Start by getting the dog to look at the base, to stand on the base with front feet, to stay on the base (5 secs)

You can click any of the above behaviour and either treat in place, or toss the treat slightly away and get the dog to repeat the behaviour that got the click.

Once he is solid at getting on the base and staying there you can add a small movement by you. Most dogs will shuffle their back feet a little so they can try to face you – be ready for this and click/reward any little movement. Keep going until you can move around the box in both directions.

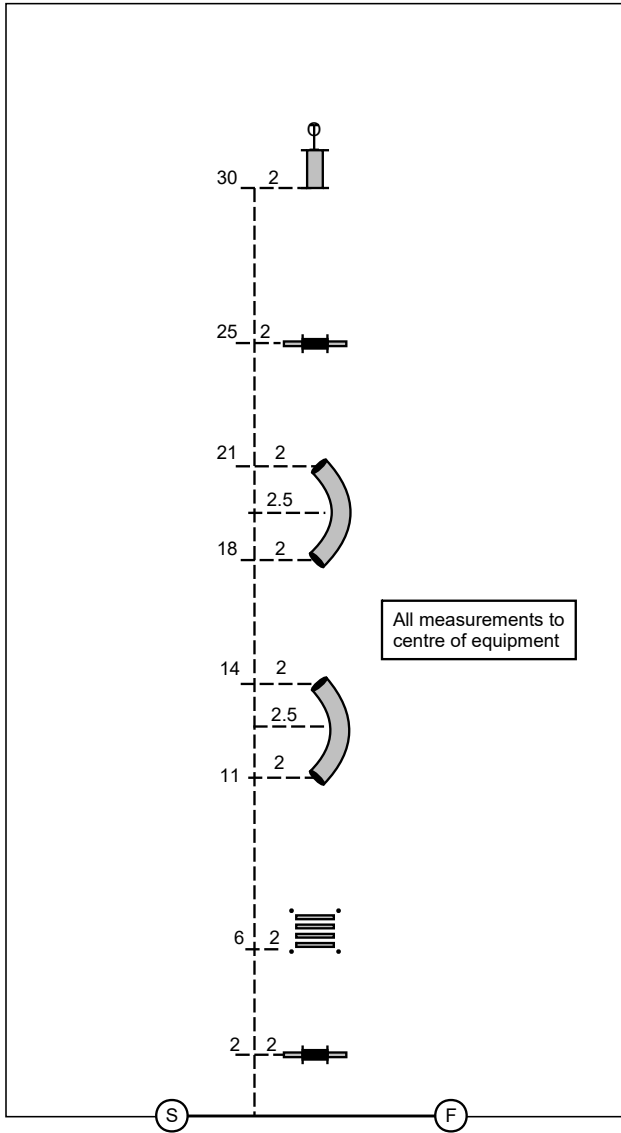

If you have any interesting tips or articles about RallyO please feel free to share on this page E; kpde Wit@xtra.co.nz

Go to the NZARO website to see pictures of Handy obstacles and some demonstrations of Zoom and handy dog signs. EXPO is being held in August.

CHALLENGE FLYGILITY COURSE
(C012)
Raewyn Saville - August 2016

STANDARD FLYGILITY COURSE
(S025)
Raewyn Saville - August 2016

ARE YOU VPC, LRI OR VIP????

Clubs may be small or big, but often the same rule applies - a few people worked really hard, doesn't matter how big the club is a few people still work really hard. These are the golden ones and we all need to thank those people. But really, we need to do a bit more than that.

Consider the following questions.

1. Do you help put gear out every week?

Always usually sometimes never

2. Do you help coach classes every term?

Always usually sometimes never

If you have answered <sometimes> or <never> to both of the above questions you should consider yourself a VPC - Very Poor Club Member.

If you answered <usually> to the above questions then you are a LRI – you have Lots of Room for Improvement.

Then ask yourself – who DOES do these things? Those people are VIPS!

If you have answered <always> to either of the above questions then you are a VIP - Valuable and Important Person – a Club member to be proud of, give yourself a pat on the back.

Sometimes you get the feeling that some people have been taught to just sit around and wait for something to happen, and then when everything is set up they spring into action. At a Club everyone needs to help. If every person does a few things then a

lot will get done, but if it is just left to a few people much less gets done.

A FEW CHANGES TO GET PEOPLE IN HELP-MODE.

If you are late – be early next week.

If you don't put up the fallen bars then rush in faster next time!

If everything is set up by the time you exercise your dog, put your tent up etc then next time do those things afterwards!

If you aren't dressed correctly for helping then dress better next time!

If you are too hot, too cold, too tired etc to help then spend a few seconds in your car before you enter club grounds to rid yourself of all those negatives!

If you don't know what to do then find out how to do it!

If you are too scared to try then, give it a go and you will become more confident!

All clubs should aim to create a Club whose members are of HIGH quality. Everyone can be a valued member of the Club and have a GREAT TIME TOO!

So, next time you come to Club, get your hands dirty, don't be scared to help, you will enjoy it.

RESULTS.
