Weave -Proofing suggestions.

Its not just about getting your dog to weave, whilst the obstacle itself presents challenges, that's not the end of the training process. You can proof the beginning, middle and end of the weave.

Proofing can be divided into two areas:- Environment and Handler proofing

Environmental changes

1. Change the position of the weave every few days. This gives a different background for the dog to weave towards.
2. Place the weave so that the end is close to a solid wall or similar – the dog has to weave right to the end.
3. Toys and food – some dogs like toys more than food and vice-versa, so it's a good idea to use, both, even mix them up!
 - a. Lay toys around the weave, within a metre.
 - b. Food - as above with food in bowls
 - c. Toy on ground, dribble/kick a ball along as dog weaves
 - d. Start with low value toy, throw right at the end.
 - e. Weave past toy - throw toy part way along weave.
 - f. Moving toy - Wave a toy in your hand as the dog weaves.
 - g. Static throw - throw toy to end of weave then ask dog to weave
 - h. Active throw - throw toy as dog is weaving.
 - i. Toy across path - helper throws a dog across the weave in front of dog.
4. Other dogs - practice with other dogs around, still, moving etc
5. Other equipment nearby
 - a. jump close but not used eg. parallel to and 1m from weave.
 - b. tunnel opening close to weave at start/middle/end.
6. plastic bag crinkling/teatowel flapping
7. use your imagination

Handler effects.

1. Movement – from not moving, to moving slowly, fast, in the opposite direction, jerky movement, move your arms, move laterally away from the dog etc
2. Handling manoeuvres – at the start and end of the weave – do all the crosses you can think of, and do them early and late, be a good handler and a poor one!

Here is a really nice article on weave pole skills and proofing:

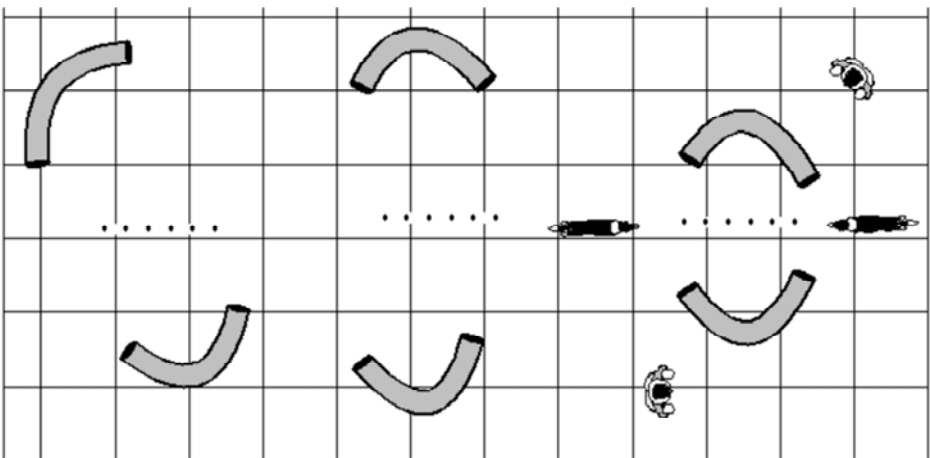

<https://www.heatheroneillagility.com/post/weave-skills>

Here is a Youtube video on making your own weaves – it uses PVC pipe.

This one uses pool noodles
